PDF Cells To

Civilizations The

extraordinary

transformations that

are the basis of life.

Simple cells evolve into

complex animals.

Single cells develop

into a human being.

Newborns learn how to

behave in society.

Societies create

cultural institutions.

Coen shows that a

small number of

principles applies to all

these transformations.

Civilizations The

The Principles of Change That ...

Overview. Cells to Civilizations is the first unified account of how life transforms itself—from the

production of bacteria to the emergence of complex civilizations.

What are the connections between evolving microbes, an egg that develops into an infant, and a child who learns to walk and talk?
