Seat Leon - Common problems « Car-Recalls.eu

SEAT Leon e-Hybrid 0-62mph, top speed and acceleration. Sprightly performance is a hallmark of plug-in hybrids, thanks to the extra power provided by the electric motor working in concert with the petrol engine. In the Leon e-Hybrid, that translates to a respectable 0-62mph time of 7.5 seconds, while top speed is a heady 137mph. Handling

SEAT Leon e-Hybrid engines, drive & performance ...

By adding a turbocharger and a supercharger to the fuel-injected engine (hence TSI), we have developed an engine with small car fuel economy and emissions, but the power of something much bigger. The engine-driven supercharger operates at lower engine speeds with the turbocharger, powered by the exhaust gases, joining in as engine speed rises.

TSI engines - Car Terms | SEAT

The only real omission is a pure-electric Leon, though SEAT has plans for a separate Leon-sized five-door hatchback electric car, no doubt based on the VW ID.3. On the petrol front, there are two TSI engines - a 1-litre three-cylinder producing 108bhp and a 1.5-litre four-cylinder with either 128bhp or 148bhp.
